Course Literature

Thollander, Patrik; Karlsson, Magnus; Rohdin, Patrik; Wollin, Johan; Rosenqvist, Jakob (latest edition) *Introduction to Industrial Energy Efficiency: Energy Auditing, Energy Management, and Policy Issues*. Academic Press.

Plagiarism is a form of cheating that involves imitating or copying someone else's work, such as a text, an image, or a table, and then present this as your own or without providing any reference. Self-plagiarism is also considered cheating, that is, using one's own previously submitted or published work without providing any reference.
