|----------------------------|--------------------------|
| Level | G2E |
| Education level | First cycle |
| Course identifier | BIG312 |
| Credits | 15 cr |
| Main field of study | Biology |
| Subject group | Biology |
| Disciplinary domain | Natural sciences 100.0 % |

Learning outcomes

Upon completing the course, the student must be able to:

1. apply knowledge in the field of biology
2. plan, carry out, and report on an independent scientific project in the subject of biology
3. present the independent project orally and in writing
4. evaluate and apply research ethics principles

Course content

- an independent project must be completed
- choice of subject for the degree project is made collaboratively by the student and the supervisor
- the chosen subject must be tied to research or development work

Teaching

Supervision of the project occurs both individually and in a group setting. The subject must be approved by the examiner before the work begins. The progress of the project must be reported to the supervisor in those instances when it is required, and at least twice before the examination is given. The degree project is an independent project.

Prerequisites

Least 75 credits on First cycle which includes Population Genetics 15 credits or equivalent education or Ecology C 15 credits or equivalent education

| | | | |
|--------------------------------|--|-------|-----------|
| Examination | The degree project is presented in a written report and orally at a seminar. The written presentation may be supplemented with other types of reports. | | |
| Grade | A, B, C, D, E, Fx, F | | |
| Limitations | Students who did not avail themselves of or failed to pass in a regular examination opportunity are offered at least four additional opportunities to take the examination. One regular examination opportunity and two additional opportunities are offered in connection with the conduct of the course. Students who have failed to pass after these three examination opportunities will be given a new opportunity to take the examination during the next session of the course. | | |
| Other regulations | Grading criteria are provided in writing by the examiner in connection with the start of the course. | | |
| Sustainable environment | The majority of the course content deals with sustainable development.. | | |
| Module | 0010 Diploma work (Learning outcome 1-4) | 15 cr | Grade: AF |
