Course identifier IEG306

Course Literature

Beaverstock, Malcolm & Greenwood, Allen & Lavery, Eammon & Nordgren, William (latest edition). *Applied Simulation: Modeling and Analysis using FlexSim*. Orem, Utah 84097 USA: FlexSim Software Products, Inc.

Distributed material, webbreferences and movies.

Plagiarism is a form of cheating that involves imitating or copying someone else's work, such as a text, an image, or a table, and then present this as your own or without providing any reference. Self-plagiarism is also considered cheating, that is, using one's own previously submitted or published work without providing any reference.
