

HÖGSKOLAN I GÄVLE

Energy Resources 7.5cr

Energiresurser 7,5hp

Set by Faculty of Engineering and Sustainable Development

Version

Set at

Valid from

2/26/18

HT2018

Level	A1N
Education level	Second cycle
Course identifier	ETA004
Credits	7.5cr
Main field of study	Energy Systems
Subject group	Energy Technology
Disciplinary domain	Technology 100.0%

Learning outcomes

After completion of the course the student shall be able to

1. explain how conversion of energy commodities into electrical energy and heat is made
2. describe renewable energies, their possibilities, and problems
3. present current research and development work related to the course content
4. present the fundamental challenges of sustainable environment with a special focus on the challenges faced by future energy systems
5. present the construction of a district heating network, its theory, technique, and function
6. analyse technical solutions and system integration of sustainable and renewable energy
7. define and formulate a project work autonomously as well as plan and, using appropriate methods, undertake the same within predetermined time frames
8. in writing report their project work and discuss their conclusions and the knowledge and arguments on which they are based
9. demonstrate awareness of ethical aspects of research and development work
10. make assessments informed by disciplinary issues related to the course content
11. make assessments informed by social issues related to the course content.

Course content

Different forms of energy with a focus on renewable energy such as hydropower, wind energy, solar energy, biogas and biofuels
System and climate aspects of different kinds of energies

	District heating systems The concepts of resources Electricity market Instruments Project work
Teaching	Lectures, projects and lessons
Prerequisites	Bachelor's degree in technology or natural sciences of at least 180 credits, or equivalent foreign degree, at least 12 credits of which in thermodynamics and fluid mechanics, or equivalent knowledge.
Examination	Written examination and project work
	0010 Written examination 4,5 credits examines Learning outcomes 1, 2, 4, 5, 6, grades A-F 0020 Project Work 3 credits examines Learning outcomes 3, 6, 7, 8, 9, 10, 11, grades Pass, Fail
Grade	A, B, C, D, E, Fx, F
Other regulations	Degree Criteria for final grade will be given by course responsible or examiner latest at the beginning of the course.
Sustainable environment	The majority of the course content deals with sustainable development..
Module	
	0010 Written examination 4.5cr Grade: AF
	0020 Project work 3cr Grade: UG
