Course content

The course offers a deeper understanding of the service marketing concept, how it differs from goods and what role it plays in today's consumption and sales. The course presents theoretical models of planning, designing and developing service offerings to satisfy customer needs. The role of customer is thoroughly discussed in creating and managing services. The intangible nature of services is focused as well as the involvement of human elements in the service creation processes. The role of customer perceptions and expectations in terms of affecting service quality is discussed thoroughly. Further, major service theories and their application are discussed from articles published in the internationally reputed journals.
