Skärvard, P-H (senaste upplagan). *Företagsekonomi 100, faktabok*. Stockholm: Liber.

*Plagiarism is a form of cheating that involves imitating or copying someone else's work, such as a text, an image, or a table, and then present this as your own or without providing any reference. Self-plagiarism is also considered cheating, that is, using one's own previously submitted or published work without providing any reference.*
