Course identifier SBA305

Course Literature

Burrough, P.A. & McDonnell, R.A. (latest edition). *Principles of geographical information systems*. Oxford University Press.

Scientific papers downloadable via the university's library

Plagiarism is a form of cheating that involves imitating or copying someone else's work, such as a text, an image, or a table, and then present this as your own or without providing any reference. Self-plagiarism is also considered cheating, that is, using one's own previously submitted or published work without providing any reference.
