### Course identifier

SB234B

### Course Literature

Burrough, P.A. och McDonnell, R.A. *Principles of geographical information systems*. Clarendon Press.

Eklundh, L. (red.) *Geografisk informationsbehandling - metoder och tillämpningar*.. Stockholm: Byggeforskningsrådet/Formas.

Jones, C. *Geographical information systems and computer cartography*. Prentice Hall.

One of the books is chosen by the student. If the student intends to continue with more advance courses, it is recommended to choose Burrough and McDonnell. Additional material will be used in seminars and practicals.
